

## POLICE MAKE RAID ON OPIUM DEALERS

Chinamen Are Arrested After  
Weeks of Investigation.

HAD BEEN WARNED OF A RAID

Thus Enabled to Guard Against De-  
tection by the Police, One of the  
Celestials Was Able to Escape.  
Technical Charge Is Violation of  
the Pharmacy Law of the District.

In arresting four Chinamen last night  
on charges of violating the pharmacy  
law, the police fired the first gun in the  
crusade against the opium traffic in the  
National Capital.

The arrests were made after an investi-  
gation of five months, in which time  
every artifice and trick known to the  
police were used in an effort to obtain  
evidence for conviction in the Police  
Court.

Five warrants for the arrest of Chinamen  
were issued, but only four Celestials  
were apprehended. The fifth was  
warned by friends, and disappeared before  
the arrival of the police. The other four  
were arrested in their shops. All are  
known as "merchants" and own stores.

Although the Chinamen were arrested  
on the technical charge of violating the  
pharmacy law, they are wanted for sell-  
ing opium, not smoking it. According to  
the police, opium is used in large quanti-  
ties by Celestials in Washington.

**Names of the Prisoners.**  
The names and addresses of those ar-  
rested appear on the police blotter as  
follows: Lee Quong, 38 Pennsylvania  
avenue; Moy Sing, 314 Pennsylvania  
avenue; Lee Lou, 39 Pennsylvania  
avenue; and Moy Lou, 35 Pennsylvania  
avenue.

They were released shortly before mid-  
night under bond of \$300 each, obtained  
for them by William E. Ambrose, attor-  
ney.

There is a specific regulation in the  
pharmacy law which prohibits the opium  
traffic. The law reads:

Under section 11 of the regulations  
such cases may be prosecuted in the  
District branch of the Police Court.  
Section 11 reads, in part, as follows:  
"That it shall be unlawful for any  
person, by himself, or by his servant  
or agent, or as the servant or agent  
of any other person, or of any firm or  
corporation, to sell, furnish, or give  
away any cocaine, salts of cocaine, or  
preparation containing cocaine, or  
salts of morphine, salts of morphine,  
or preparations containing morphine,  
or salts of morphine, or any opium  
or preparation containing opium, or  
any chloral hydrate or preparation  
containing chloral hydrate, except  
upon the original written order or  
prescription of a legally authorized  
practitioner of medicine."

Since the act of Congress last session,  
prohibiting the sale of opium, cocaine,  
and injurious derivatives, the police have  
been making an investigation. Police-  
men of the Sixth precinct say they have  
known the opium trade has been one  
of the chief revenues among Chinamen  
in Pennsylvania avenue for many years.  
A fight against the traffic in opium, so  
much they became wary, and concealed  
every transaction, selling only to tried  
and trusted friends.

Following the arrest covers the part  
of Pennsylvania avenue some time known  
as "Chinatown," studied every Chinaman  
who took up his residence there, and  
marked those "spot" in stores where  
the opium was sold.

**Warned by Their Friends.**  
Plain clothes men were detailed with  
little success, friends of the Chinamen  
pointing out the Central Office detectives  
every time they made their appearance.

Overtures were made to friends of the  
opium dealers, with the result that in a  
short time men familiar with nearly every  
Celestial in the Avenue were obtaining  
evidence, according to the police officials.

Although these men worked unceasingly,  
the police apparently grew lax in their  
watchfulness, thus throwing the Chinamen  
off their guard.

In the last few weeks the Chinamen  
grew bold in their transactions. Last  
night was determined on as the night for  
the arrests. Knowing the appearance of  
four well-known policemen in Chinatown  
would be a signal for the disappearance  
of all likely to be under suspicion, the  
police agreed to go alone to the stores  
where arrests were to be made, and ap-  
prehend the Chinamen separately.

About 9 o'clock four members of the  
police force, Detective J. E. Armstrong,

## LOCAL DEMOCRACY HAS YIM TO SPARE

Much Campaign Vigor Dis-  
played at Meeting.

FUND FOR MARYLAND FIGHT

Bryan Democratic Association Ad-  
dressed by Robert E. Mattingly.  
Who Raps Republicans on Tariff  
Revision Issue—Democracy Is More  
United Now Than Since 1884.

What was probably the most auspicious  
initial meeting ever held by the  
Democratic organization in the District  
was conducted at Red Men's Hall, Wis-  
consin avenue and N street, last night by  
the Bryan Democratic Association of  
Georgetown.

Under the leadership of George Killen,  
and other Democrats of West Washing-  
ton, more than 150 supporters of Bryan  
and Kern expressed great confidence in  
the election of Democracy's standard  
bearer.

In addition to raising funds to carry on  
a campaign in Maryland and near-by  
States, the reorganized association de-  
cided to hang a large banner bearing the  
portraits of Bryan and Kern across M  
street, at Thirty-second street, this week.

**No Lukewarm Adherents.**

The meeting was strictly a Bryanite  
gathering, with all present singing the  
praises of the Nebraska and voicing the  
hope that he would be elected on Novem-  
ber 3. Speeches lauding the principles of  
the Democratic party and explanatory of  
the logical basis of the issue, were made by  
Robert E. Mattingly, Frank Wisner, George  
Killen, and John Keady.

Following the opening address by John  
Costello, officers were elected as follows:  
George Killen, president; Charles E.  
Hendricks, vice president; Frank Wisner,  
secretary, and John Keady, treasurer.

Mr. Mattingly, in a lengthy address,  
predicted the election of the Peerless  
Leader, and said in part:

"Ever since William J. Bryan as a  
young statesman came to the front, in  
1896, as the champion of the common  
people, he has been regarded by Demo-  
crats as a man fit to be President of the  
United States. By his remarkable ideas  
and notable issues he has steadily  
forged ahead until to-day he is regarded  
by many Republicans and Democrats as  
the logical basis of the issue."

It is known that the party are watching  
Chinamen in Ninth street northwest  
where a number of chop suey stores are  
located.

**APPROACHING MARRIAGE.**

Daughter of the Late Senator Gor-  
man May Wed Soon.

Announcement was made yesterday of  
the approaching marriage of Miss Ada  
Gorman, daughter of the late Senator  
Arthur Pugh Gorman, to Mr. C. J. Hart-  
love, prominent in the business and social  
world of Louisville, Ky.

The wedding ceremony will be held at  
which will take place in the near future,  
will be performed by Rev. Dr. Frederick  
D. Power, pastor of the Vermont Avenue  
Christian Church.

Friends of Miss Gorman learned of the  
coming marriage with feelings of  
pleasure and regret, especially her friends  
in the Vermont Avenue Christian Church,  
of which she is one of the most active  
members. For years Miss Gorman has  
been an active worker and valuable con-  
tributor in the church, and her loss will  
be distinctly felt there.

It is said the couple will reside in Louis-  
ville, the home of the bridegroom. It  
will deprive the local church of the ser-  
vices of its valued worker.

## CLEAR THE COMPLEXION OVERNIGHT

Pimples, Rash, Eruptions, &c., Quickly  
Eradicated by New Skin Remedy.

Since its discovery one year ago, pos-  
sibly, the new skin remedy, has, in its ex-  
traordinary accomplishments, exceeded the  
most sanguine expectations of the  
eminent specialist who gave it to the  
world. It has cured thousands of cases of  
eczema and eradicated facial and other  
disfigurements of years' standing. The  
terrible itching attending eczema is stopped  
with the first application, giving proof  
of its curative properties at the very out-  
set.

In less serious skin affections, such as  
pimples, rash, herpes, blackheads, acne,  
barber's itch, &c., results show after an  
overnight application, only a small quan-  
tity being required to effect a cure. A  
muddy or sallow complexion is notice-  
ably improved by a single application.  
Those who use poslam for these minor  
skin troubles can now avail themselves of  
the special 25-cent package, recently  
adopted to meet such needs. Both the  
25-cent package and the regular \$2 jar  
may now be obtained in Washington at  
O'Donnell's, and other leading  
drug stores.

Samples for experimental purposes may  
be had free of charge by writing direct to  
The Laboratories, 22 West  
Twenty-fifth street, New York City.

## WANTS ALL VETERANS UNITED

Scheme Born at Banquet of Spanish  
War Heroes.

Proposition Suggested by Mas-  
achusetts Secretary of  
State.

Boston, Aug. 31.—The keynote of the  
big reunion of the United States Spanish  
war veterans was sprung to-night at the  
banquet and reception to the officers and  
delegates when Secretary of State Wil-  
liam Olin, of Massachusetts, in his speech  
of welcome, voiced the proposition for a  
united order of American veterans.

Secretary Olin, who is himself a civil  
war veteran, extended the hand of the  
Grand Army to the veterans of the Span-  
ish-American war, for the amalgamation  
of the veteran organizations. Applause  
broke loose when the words putting forth  
the movement fell from the speaker's lips  
and for ten minutes the uproar lasted.

Gen. Nelson A. Miles was the hero of  
the evening. He met with a rousing re-  
ception when he arose to address the  
delegates. He had but a few words to  
say. The strategists arriving by  
every train, and at midnight nearly all  
delegations are complete. Inside poli-  
tics is playing an important part in the  
encampment, and several contests are al-  
ready being waged for the election of the  
coming election of officers.

Already there are two active candidates  
to succeed Commander Hale, Capt.  
Charles A. Simmons, of Rochester, N. Y.,  
and Capt. Charles W. Newton, of  
Hartford, Conn., each of whom opened  
headquarters to-day.

For the next convention Tacoma,  
Wash., has already started a movement.

## HANDCUFFED AND ON PARADE

Washington Attorney and a Friend  
in Trouble in Hyattsville.

Because They Were Unable to Give  
Bond on Technical Charge They  
Were Handcuffed.

Handcuffed and paraded through the  
streets of Hyattsville, Md., because they  
were strangers and could not give real  
estate security in the sum of \$100 for  
their appearance before Justice Carr, the  
Peace Arthur Carr to answer a technical  
charge, was the experience, it is said, of  
Charles C. Payne, of Ardmore, Prince  
George County, Md., and J. Hanson Boyce  
of Washington, on Friday last.

Their troubles resulted from their ef-  
forts to collect a commission for selling  
a small tract of land belonging to Mrs.  
E. N. Meloy, widow of William A. Meloy,  
at Ardmore. Two real estate brokers of  
Washington sold the same piece of prop-  
erty to different persons.

When Payne and Boyden took posses-  
sion of the property after depositing \$100  
to bind the bargain for the sale, they  
were arrested at the instance of other  
parties, who claimed they had purchased  
the property in good faith. Constable  
Wallace Dixon arrested the men.

The prisoners were taken before Justice  
Carr, Hyattsville, and were held for  
their appearance on Saturday. Justice  
Carr exacted a real estate bond in the  
sum of \$100 as a guarantee for their ap-  
pearance. The men, according to Judge  
Carr, under \$100 in currency, but the  
prisoners could not accept it. Real estate  
security was required. Neither Mr. Payne  
nor Mr. Boyden could think of any one  
they knew in Hyattsville who would go  
for their bond. They were handcuffed, it  
is said, and taken to the Chesapeake Beach  
train in Hyattsville, to be taken to the  
jail in Marlboro. Harry W. Dorsey,  
an official of the Smithsonian Institution,  
reached the station just before the train  
began to move and recognized in Boyden  
an old friend.

He asked the constable to release the  
prisoners, declaring he would be responsi-  
ble. The officers could not do this and Mr.  
Dorsey hastened to Judge Carr's office.  
Meanwhile the train had left the station,  
and Judge Carr telephoned to Chesapeake  
Beach, instructing Officer Dixon to  
bring the men back Saturday. Judge  
Carr, it is said, was not satisfied with  
the bond, and the necessary bond was ob-  
tained. G. Hodges Carr going security.  
Late yesterday afternoon Judge Carr an-  
nounced that, as it was a question of title  
to property, he was without jurisdiction.  
The case, unless adjusted, will be taken  
to the Circuit Court of Prince George  
County.

**Sources of Sugar.**  
The United States Department of Agri-  
culture states that from the standpoint  
of chemical composition the sugar which  
occurs in the sugar beet, the sugar maple,  
and other vegetable products is identical  
with that which appears in sugar cane.  
As it occurs in nature the sugar is ac-  
companied by various other materials dis-  
solved in plant juice and it is the pres-  
ence of such particles that give certain  
commercial sugar products like molasses  
and maple syrup their distinctive flavor. Old-  
fashioned brown sugar, maple sugar, and  
cane sugar differ in appearance, flavor,  
and palatability owing to the character  
of the plant product which remains with  
the sugar, but from all of them it is pos-  
sible to obtain pure colorless crystals like  
those called rock-candy, identical in ap-  
pearance, flavor, and other characteris-  
tics.

## AUTHORITIES WILL STUDY MRS. EARLY

Purpose to Ascertain if She  
Contracts Leprosy.

WILL MAKE FREQUENT TESTS

Mother and Young Son Will Be Ex-  
amined Every Other Day for Evi-  
dences of Malady—Early, Cheered  
by Wife and Baby, Exhibits a  
Determination to Get Well.

Health department authorities will keep  
Mrs. Lottie Early, wife of the Washing-  
ton leper, under close surveillance, al-  
though she has so far not shown any  
outward signs of the disease.

This determination was reached last  
night, after it was learned that a stork  
was hovering over the Salvation Army,  
where the wife of the afflicted man re-  
sides. Owing to the length of time re-  
quired before leprosy makes its first ap-  
pearance, it is possible that both mother  
and child may develop leprosy years after  
they have been removed from Early.

In spite of the freshly contagious charac-  
ter of the malady, local physicians fear for  
the safety of the mother and her baby.

The fact has been established beyond  
doubt that Early was well into "the first  
stages of the disease when he left his  
wife, and, as near as can be ascertained,  
he must have been suffering from leprosy  
for more than a year prior to the birth  
of his son.

**Nature of the Malady.**

Owing to the unusual nature of the  
malady, the physicians in charge of the  
health department are not as well versed  
in its peculiarities as they are in most  
of the contagious diseases, and the question  
of whether the disease can be transmitted  
before it has made its first appearance  
has not yet been decided upon.

No examination of the blood of the  
leper's wife has been made, although one  
of the first tests used on the husband  
was what is known as the "blood test."  
It was in this manner the physicians  
were convinced Early was a leper.

It has been decided there is no reason  
for quarantining Mrs. Early. She will  
be allowed to visit her husband when she  
pleases, and will not be isolated in her  
room at the Salvation Army Home. She  
will be allowed to visit her husband when  
the religious body in their public  
dining-room.

But at intervals of every other day  
physicians, sent at the direction of Dr.  
Fowler, will be required to examine the  
woman and her baby for possible traces  
of the disease. The fact that she has not  
been put in quarantine is not evi-  
dence that she is safe in the hands of  
the local authorities. Should she at any  
time exhibit the slightest symptoms of  
leprosy, she will be removed with her  
husband to what is becoming known as  
Washington's leper camp, and will be re-  
quired to remain there until the end.

It is becoming more and more clear to  
the authorities that North Carolina is in  
no mood to accept a leper as a State  
ward. As he was first found in the Dis-  
trict, the State authorities have no desire  
to incur the extra burden and expense of  
maintaining and treating a patient whose  
death is feared.

The length of time required by the  
State's attorney general to file his report  
is believed by Dr. McLean to portend a  
strong disinclination on the part of the  
State to permit Early to come there.

## A Permanent Cottage.

As they have practically abandoned all  
idea of ridding themselves of the leper,  
the authorities are now planning for a  
permanent cottage, which
